PROFILE STATEMENT

Creative and detail-oriented freelance web developer with experience designing responsive websites, building modern front-end interfaces, and developing 3D models for interactive applications. Skilled at translating client requirements into engaging digital experiences that balance aesthetics, usability, and performance. Currently seeking a full-time opportunity to contribute these skills within a dynamic team environment.

EXPERIENCE

Freelancing, Web Developer
August 2024 – Current

- Designed and developed responsive websites and landing pages for small businesses, focusing on clean user interface and optimized performance.
- Created modern, interactive user interfaces using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility and mobile responsiveness.
- Collaborated directly with clients to gather requirements, deliver custom solutions, and provide ongoing support and updates.
- Developed and textured 3D models for web presentations and interactive applications, enhancing visual appeal and user engagement.

Customer Service, ACES Group, Sydney
November 2023 – Current

- **Customer Service & Communication** – Provided proactive service in a dynamic environment, managing emotions and ensuring clear, positive interactions.
- **Event Coordination & Team Management** – Oversaw event service teams, ensuring smooth operations and timely delivery of planned activities.
- **Technical & Process Adaptability** – Operated EFTPOS machines, scanners, and check-in systems while quickly adapting to changing client needs and problem-solving effectively.

BAU IT Support - Control-M Batch Operator, UXBasix, Brisbane
November 2021 – July 2023

- **Batch Job Monitoring & Scheduling** – Provided 24/7 oversight of JCL scripts in COBOL, ensuring timely execution and scheduling jobs as needed.
- **Error Resolution & Optimization** – Identified and resolved errors by adjusting scripts, bypassing streams, and reprocessing data, leading to a 95% incident reduction post-migration.
- **System Patching & Team Coordination** – Supported application teams during updates, ensuring optimal timing for patching while minimizing system downtime.
